

ICANN Meetings Community Stakeholder Selections Summary Report

ICANN67 through ICANN82

24 March 2025

Why is ICANN publishing this data?

- **ICANN org publishes By the Number Reports summarizing the data collected for each ICANN Public Meeting since ICANN55. These reports included data on self-identified Community Stakeholder affiliations.**
 - These reports can be found here: <https://meetings.icann.org/en/data-reports>
- **In an effort to produce these reports in a more timely manner, ICANN modified aspects of the summary data starting with the ICANN67 By the Numbers Report. This included removal of the self-identified Community Stakeholder affiliations data summary.**
- **This document provides the self-identified Community Stakeholder affiliations data for ICANN67 through ICANN82 for all meeting registrants.**
- **Please note that, as with previously reported Community Stakeholder affiliation data for ICANN Public Meetings, this data is self-designated by the meeting registrants and has not been validated by ICANN org.**
